

COMMUNITY DISTRIBUTION

Important Changes to the Procedure

This year, the registration period for community distribution will begin in July. This decision will minimize the risk of errors by increasing order processing time.

The enrollment period for the community distribution will be from July 10 to September 17, 2022.

The contents of the fish box will be more consistent with the species harvested by the Wolastoqiyik Wahsipekuk First Nation. The following species will be introduced: whelk and crab.

Changes have been made to the online payment system to make it more reliable and to ensure that boxes are delivered to the right place.

A new procedure for collecting community boxes by members has been implemented. Thus, when paying for community distribution, members will be given a coupon with a QR code. This unique coupon will be used to validate the order at the delivery sites and avoid mistakes being made by the delivery people. For online payments, the coupons will be issued instantly while for postal payments, the coupons will be sent by mail.

In order to build a list of members wishing to become more involved in the delivery sites, we ask members to inform us of their interests by contacting info@malecites.ca or by phone at 418-860-2393.
