

# ATTEND THE WAHSIPEKUK SEMINAR!

The Wolastoqiyik Wahsipekuk First Nation, in collaboration with Parks Canada's Indigenous Guardians Program and the EcoMaris crew, is offering community members the opportunity to participate in the second edition of the Wahsipekuk Seminar.

You will discover the Wolastokuk, on the St. Lawrence River, aboard a sailboat school and you will have the opportunity to acquire navigation notions and learn more about the marine environment.

This is also a great opportunity to become familiar with the Indigenous Guardians Program that is being developed jointly by Parks Canada and the WWFN and to learn about the work of the guardians in making the program a success.

**Please note that space is limited and that the seminar is a 9-day event in early July. Dates will be confirmed at the information session.**

---

*Indigenous Guardians help Indigenous Nations honour the responsibility to care for lands and waters. They serve as the "eyes and ears" on traditional territories<sup>1</sup>.*

---

**For more details, register for the information session before May 12, 2023, by email**
